READING (максимум 20 баллов) Time: 40 minutes

Imagine you are at a bookstore holding a children's book in your hands and looking at its front cover, back cover, and the flaps of the dust jacket. You are also looking at the beginning of the Prologue. Read everything that is written there and answer the questions below. If you don't know some of the words, look them up in the GLOSSARY to this task at the very end after the questions.

The front cover contains the following information:

A puzzle maker's last clue. A friendship's lastchance.

HIDE AND GEEK

THE PROBLEM:

The GEEKs' hometown of Elmwood was once the headquarters of the famous toy maker Maxine Van Houten. Her popular puzzle sphere, the Bamboozler, put the townon the map. But Maxine passed away long ago. Now the toy factory is shutting down and Elena's mom and Kevin's dad are losing their jobs. Their families might have to move - and that would mean splitting up the GEEKs!

Maxine left one final puzzle, a treasure hunt that could save the town and keep the friends together. But only those who know and love Elmwood best will be able tosolve it. GEEKs to the rescue!

Here's the beginning of the Prologue:

PROLOGUE

Okay, by now I'm sure you've heard about everything going on in the tiny town of Elmwood, New Hampshire... You've read the headlines or seen the photos or whatever. The failing factory, the hidden fortune, the kidnappings, all that stuff.

Last week, a reporter showed up all the way from Australia... Unfortunately, except for his cool accent, he was like every other person who's flooded into Elmwood lately - chasing a fairy tale. But me? I grew up in Elmwood, and I care about the facts.....

The front cover flap contains the following information:

THE GEEKs:

Gina, Edgar, Elena, and Kevin have been best friends for as long as they can remember. So when their archnemesis points out that their initials make them *literally* GEEKs, they decide to go with it.

THE PROBLEM:

The GEEKs' hometown of Elmwood was once the headquarters of the famous toy maker Maxine Van Houten. Her popular puzzle sphere, the Bamboozler, put the town on the map. But Maxine passed away long ago. Now the toy factory is shutting down, and Elena's mom and Kevin's dad are losing their jobs. Their families might have to move – and that would mean splitting up the GEEKs!

THE QUEST:

Maxine left one final puzzle, a treasure hunt that could save the town and keep the friends together. But only those who know and love Elmwood best will be able to solve it. GEEKs to the rescue!

The back cover flap contains the following information:

T. P. JAGGER is an elementary school teacher turned reading specialist turned college professor and writer. He claims to have written an award-winning scientific work – *The Buoyant Brain: Why My Brain Floats and Yours Doesn't* → under the pseudonymous guise of Dr. Doogle McCrub. This is a total lie. He is also not a professional magician, although he can make pizza disappear. He and his family live in the USA in the Pacific Northwest with two dogs and an evil, ankle-biting cat.
